- From Ely, take State Highway 169 east for 1 mile to County Road 88
- Turn left on County Road 88 and travel 2 miles to County Road 116 (Echo Trail)
- Turn Right on Echo Trail and continue 10 miles to County Road 644 (North Arm Road)
- Parking is Provided on the left side of the road

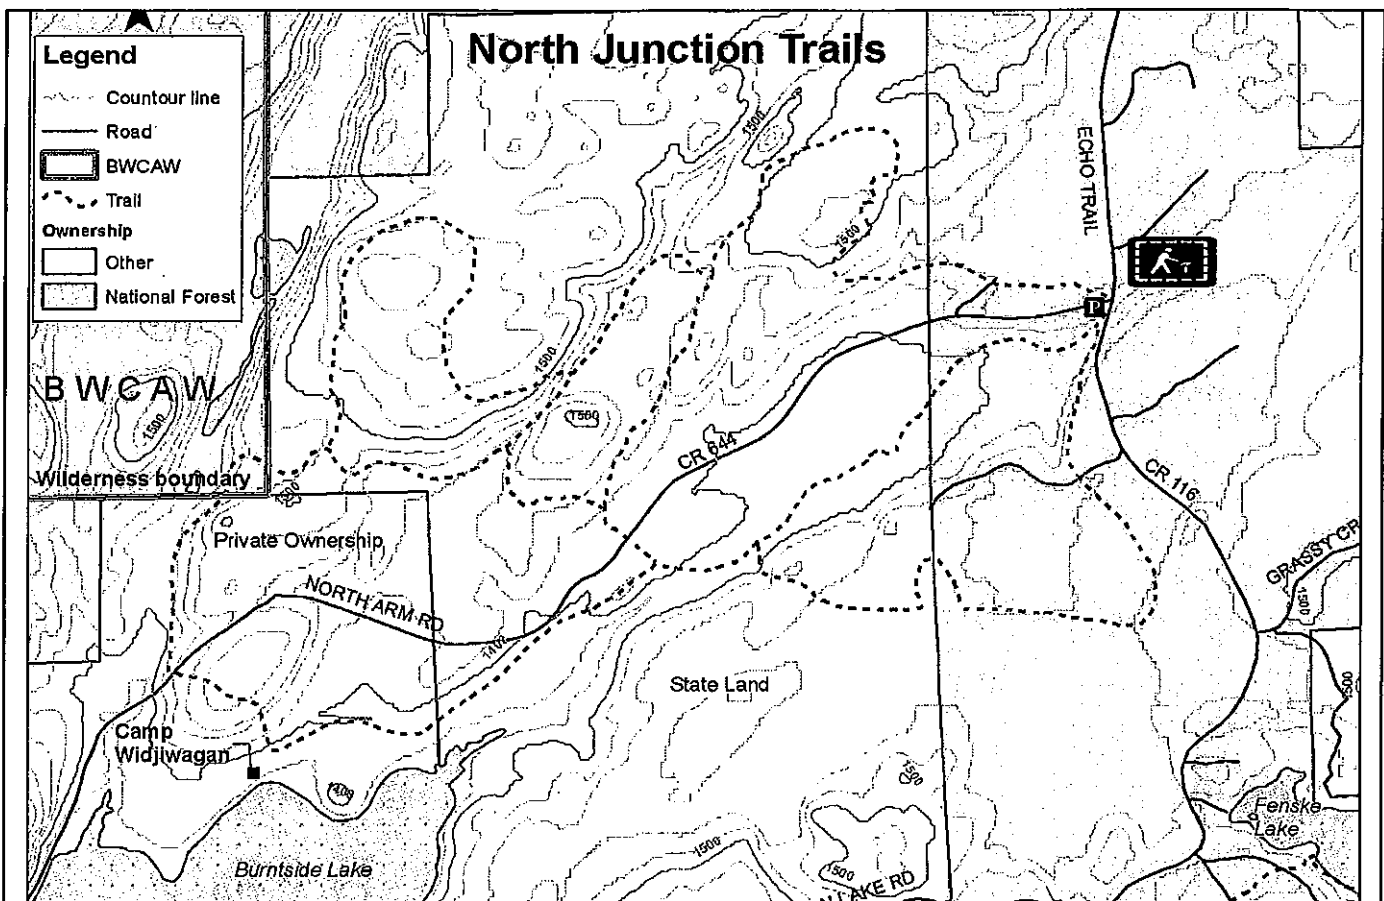

Superior National Forest - North Junction

Description

The North Junction Trails consist of a series of loops. There are two loops south of North Arm Road. The Beaver Meadow Trail is a beginner to intermediate trail that goes through hilly upland areas, a spruce swamp, and a beaver pond. The west end of the Beaver Meadows Trail leads to Camp Widjiwagan, where the trail follows the road through the camp. While on the road, watch for vehicles and respect camp property.

From Camp Widjiwagan, the trail crosses the North Arm Road. The North Bog Trail goes north, following Hunch Creek. This Trail is not marked beyond the wilderness boundary, and only those carrying a map and compass should venture on this wilderness route. The other trails on the north side of the road follow old logging roads. There are some long downhill runs that will challenge intermediate to advanced skiers. The Ice Cliff Trail is a scenic area along high rock bluffs.
